

Hiba Adil, she/her

Class of 2026

Neuroscience and Global Health Studies

Why Northwestern?

I chose Northwestern because I truly was seeking an institution that was well rounded in its preparation for student's success in both undergraduate and post-graduate fields. NU was also very balanced in what activities, organizations, and clubs it had to offer to students, and how fit the campus was (not too large of an institution, but also not too small!).

Favorite Spot on Campus:

Kellogg! (Highly underrated study spot).

Come to me for:

- Research
- Time Management
- Building Class Schedules
- Organizations/Clubs on Campus

Why did you become a counselor?

I decided to become a counselor to give back to the Northwestern Arch Scholars community that poured so much into me! When I was first a part of Bio&ChemEXCEL, I truly met my support system at NU and was able to learn more about the university, and my future as a student. I truly want to give back to incoming students and welcome them to experience countless opportunities, knowledge, and support.
