

Sarah Sajjad, she/her/hers

Class of 2025; biology, global health, data science

What is one piece of advice you would give incoming students?

Take one step at a time, so much information and lots of change happens as an incoming college student but eventually you get acquainted and everything works out! Also, utilize your professors, mentors and counselors for advice!

Favorite Spot on Campus:

Cafe Coralie and the lakefill, of course!

Come to me for:

- Academics
- Research
- Campus life
- Residential College life

Why did you become a counselor?

I decided to become a counselor because I wanted to be a resource for incoming wildcats. I am immensely thankful for my counselors and hope to give back the advice and support they provided me with!
