## Why Northwestern?

Out of the colleges I applied to, Northwestern was the one where I felt like no compromises had to be made when making a final decision. Northwestern had the academics, resources, and community that I was looking for in a university.

## Come to me for:

- STEM, especially Biology and Chemistry
- Study
- Pre-Med

## Why did you become a counselor?

After participating in BioChemExcel myself, my transition to college was way less daunting, and I still use what I learned in the program to this day. I want to help create that same experience for future students.
