Why Arch Scholars?

I decided to do Bridge because I wanted an early start to college. I was eager to get on campus for the first time and experience a different state and place that I have never been as well as meet some of new peers. I also knew that getting on campus early means being on campus before my first year roommate so I could pick my side of the room and move in first.

- Economics
- RTVF or entrepreneurship program
- A listening ear

WHY NORTHWESTERN?

I chose Northwestern because of the academic flexibility the university offers. I got into the University as an Econ major and before I even stepped on campus I was able to change my major and explore multiple different areas of study. The campus is also beautiful and full of wonderful sites to see on a daily basis.

MY FAVORITE ARCH MEMORY

Some of my favorite memories is just chilling in the lounge and either watching movies or playing video/board games with my other peers or counselors and just spending time with people sharing stories.
