

Zenobia Jordan, she/her/ella

Class of 2026; sociology & Black studies

Favorite Arch Memory?

My favorite memories have been the unstructured and random bonding moments during the summers I spent as both a Bridge counselor and a participant in the Bridge program. When I was in Bridge, we would have spontaneous home group picnics or baking competitions. As a counselor, we had frequent horror movie nights and played Assassin. These experiences allowed me to build stronger relationships with everyone in Bridge outside of assigned home groups.

Favorite Spot on Campus:

The rocks near north beach make really good picnic and study spots

Come to me for:

- Activism
- Volunteering & civic engagement
- Humanities studies
- Law school applications & resources

Why did you become a counselor?

I chose to be a Bridge counselor (year 2 yay!) because I truly value the connections I've made throughout the last two years of participating in the program. There's no better feeling than finding a community that relates to you, especially at a top institution. I've learned so much from the people that I've met in this program, and I credit my successes to them. I found a family through Bridge, and I want to help others do the same.
