Why Northwestern?

I wanted to immerse myself in a challenging, diverse environment with ample opportunities to grow my academic and professional career. Northwestern's emphasis on interdisciplinary studies heavily attracted the "nerd side" of me, while the close proximity to Chicago lured the "fun and ambitious" side of me. (Let's be honest: the photos of the lakefill are also very appealing to the eye).

Favorite Spot on Campus:

Lakefill!

Come to me for:

- Understanding how to write a paper in the Social Sciences
- Grant Writing
- Finding Research Opportunities
- Networking

Why did you become a counselor?

I decided to become a Bridge counselor because the Bridge counselors during my program were extremely supportive mentors and provided me with tailored advice. I am excited about the opportunity to provide students with mentorship and help them navigate the nuances and intricacies of Northwestern.
